

# Program Page Tutorial

To build a program page, the tasks must be completed in this order:

1. Build the spotlight that will be pulled in for the featured quote at the top. Follow the tutorial to create news/stories.
2. Build the spotlight that will be pulled in for the alumni quote in the careers section. Follow the tutorial to create news/stories.
3. Build the four program features. Tutorial included here.
4. Build the program page. Tutorial included here.

## Build the four program features

Go to Content > Add content > Program Feature.

Fill out the fields:

- Title: This is the internal title for the feature, which you will use to find the content on the back end. Users will not be able to see this name.
  - Following the naming convention: “Major name – Feature theme” (i.e. “Theatre – Internships” or “General Studies – Student orgs”)
- Feature display title: The public-facing name of the feature.

- **Description:** The body content of the feature.

**Create Program Feature** ☆

[Home](#) » [Add content](#)

**Title \***

**Feature Display Title \***

**Description \***

**B I** | Source

Louisiana is home to around 40% of the United States' wetlands and loses an estimated 35 square miles of land a year. Explore, study, and learn how we can save our wetlands and protect our natural environment.]

body p

[About text formats](#) ?

- **Video or Image:** Use either field, but not both. Follow the steps for uploading a new photo or linking to a video. You should only add a video or image for the main program feature, not the others.
  - For the photo, make sure it is sized to 760x500 pixels and has an SEO-friendly file name.
  - Once the photo is uploaded, make the photo name follow this naming convention: Feature type – page – subject matter, such as “Program feature – Theatre – Internship”)

**Add Image** ☆

[Home](#) » [Add media item](#)

**Name \***

**Image \***

**Alternative text \***  
  
Short description of the image used by screen readers and displayed when the image is not loaded. This is important for accessibility.

[Remove](#)

**Media Tags**

**Published**

**Revision information**  
 No revision

**Authoring information**  
 By C00001057 (24) on 2020-10-13

**Revision log message**  
  
Briefly describe the changes you have made.

[Save](#)

- Return to the tab where you are building the program feature. In the image field, type in the name of the image you just added and select it from the auto-complete.

**IMAGE**

**Create new media**  
 Create your media on the [media add page](#) (opens a new window), then add it by name to the field below.

**Use existing media**

Type part of the media name. See the [media list](#) (opens a new window) to help locate media. Allowed media types: *Image*

- CTA Link URL and Link Text: the URL is the link, and the Link text is the visible text (i.e. “more about internships”)

**CTA LINK**

**URL**

Start typing the title of a piece of content to select it. You can also enter an internal path such as */node/add* or an external URL such as *http://example.com*. Enter *<front>* to link to the front page. Enter *<nolink>* to display link text only.

**Link text \***

Change from “Draft” to “Published.” Save.

---

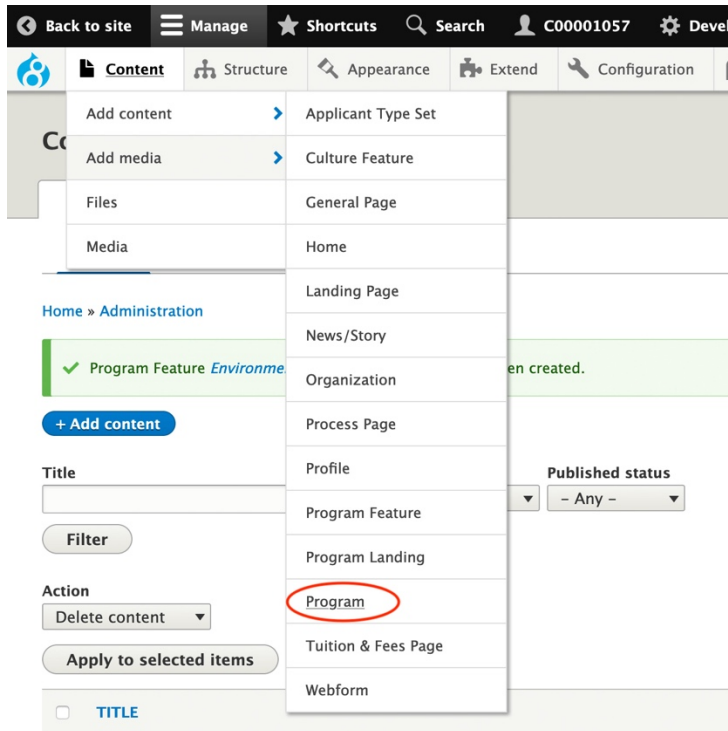

Save as: Published ▼

**Save**

Repeat for the other three program features.

Build the program page

Go to content > Add content > Program (not Program Landing).

Fill out the fields:

- Title: How the page name should appear.
- Featured news/story: type in the name of the student spotlight that will be featured at the top of the page. It should auto-fill with the full name after you select it.

### Program details section

- Add the details including:
  - Degree name
  - Program tracks (major, minor, or both)
  - Total credit hours
  - Colleges: type in the name of the college for it to pull in from the organization directory
  - Departments/Schools: type in the name of the department for it to pull from the organization directory
  - Online program details (if applicable)
  - Concentrations (if applicable)

Who is this program for?

**B I U** | | | Styles | Source

You should major in environmental science if:

- You love nature and the environment, spending time outdoors, hiking, and camping.
- You'd like to explore the intersection of biology, chemistry, physics, and math.
- You want hands-on experiences in classes that take you into Louisiana's unique environment.

Format | Styles | Source

Environmental science is the study of the planet's biological, chemical, and geological resources as well as how those resources affect humans. Here at UL Lafayette, we apply 3D and 4D thinking with a focus on intensive real-world problem solving.

You can choose from one of three areas of concentration:

- Digital Geography
- Environmental Quality
- Soil & Water Conservation

Whichever you choose, you'll get experience doing lab and field work, computer mapping, and data analysis and application.
